Administrative Services

The Administrative Services Division is lead by the Administrative Services Manager. They are responsible for all of the Region's finances. They direct the budgets of Administration and Operations. They process accounts payable, billings, payroll, travel, deposits and other accounting related activities. They oversee inventory, damage claims, reconciliations, utility payments and equipment rental. They coordinate other agency and group resources including the technical support, rotationals, interns, seasonals, and human resources.

Department of Technology Services (DTS)

DTS deals with all areas of the State's Information Technology (IT) services. Our vision under the State's Chief Information Officer (CIO), is to consolidate all IT resources and services for the State of Utah into one department to improve accountability, reduce costs, increase services to taxpayers, and more closely align IT with the business needs of the State of Utah.

In a collaborative effort, DTS has established a close working relationship with its stakeholders to ensure that the state's IT organization is responsive, accountable, and well-aligned to the business needs of the State of Utah. DTS has also established a performance-based strategy to provide ongoing alignment to the requirements defined by DTS customers. This strategy has presented DTS with opportunities to supportively partner with other agencies to improve performance across state government.

Human Resources

The Human Resource Division in Region Four is part of the Department of Human Resource Management. This division is lead by a Senior Analyst with the assistance of one Human Resource technician. They are responsible to aid in the efficient execution of public policy; foster careers in public service for qualified employees and render assistance to the Region in performing their mission. They are responsible for all of the Region's recruiting needs, classification needs and coordination with UDOT's accounting section of employee actions. They are responsible to advise leadership in all Human Resource matters.
